**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Richeson. Note column 11, line 64 through column 13, line 2; column 13, line 64 through column 14, line 4; column 15, line 45 through column 16, line 11; and column 18, lines 43-55.

**Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references of Kawamura and Salber et al are cited to show electrically actuated valves.
